- Canteen Facility

About Department

The Department of Computer Science was established in the year 2013 with the vision to become a center of excellence in computer education and research. Currently, the department offers undergraduate (UG) and postgraduate (PG) programs. Two programs are approved by AICTE, ensuring high-quality education and adherence to industry standards. The department boasts state-of-the-art infrastructure, including four programming labs equipped with the latest I7 computers and interactive panels.

The department organizes various workshops, seminars, and expert lecture series on a regular basis. In line with its commitment to staying at the forefront of technological advancements, the department has established a Centre of Excellence for Artificial Intelligence (AI), Machine Learning (ML), and Internet of Things (IoT).
